Opis produktu

FOX40 upper jaw protector single with strap

Upper jaw protector, useful for athletes.

Material: the protector is made of anti-allergic and non-toxic EVA plastic.

The strap allows attachment to the face shield mask and prevents the protector from being lost.

INSTRUCTIONS:

For better flexibility of the plastic, immerse the mouthguard in hot water, then place it in the mouth and wait (approximately 20 seconds) until the mouthguard conforms to the shape of the teeth. Clean it thoroughly under running water before each use. The mouthguard should only be used by one person.
